DETAILED ACTION

1. This is in response to the Applicant's arguments and amendments filed on November 20, 2007 in which claims 1, 3, 5, and 7 have been amended. Claims 1-11 are currently pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 5-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Nguyen (US 2007/0214482).

Regarding claim 5, Nguyen teaches receiving in a transmission a session description protocol (SDP) message interleaved with a broadcast session on a broadcast channel (i.e., media generation (TV, STB, PDA) receives media content and SDP, [0026], [0035] and [0048]), wherein the SDP message provides information for decoding payload data of the broadcast session (i.e., tv includes a SDP decoder and the SDP file indicates parameters for video session, [0047]-[0048] and [0057]); accessing the broadcast session on the broadcast channel (receiving SDP, indicating parameters for video session which includes channel number to be selected and type of

session to be presented [0048]-[0049]); and retrieving the SDP message from the transmission in the broadcast channel ([0051]); and processing the broadcast session using the SDP message ([0050]-[0051]).

Regarding claim 6, Nguyen teaches the SDP message is interleaved with broadcast content of the broadcast session (the SDP file include information about video content [0026] and [0048]).

Regarding claim 7, Nguyen teaches means for receiving in a transmission a session description protocol (SDP) message interleaved with a broadcast session on a broadcast channel (i.e., media generation (TV, PDA) receives media content and SDP, [0026] and [0048]), wherein the SDP message provides information for decoding payload data of the broadcast session (i.e., tv includes a SDP decoder and the SDP file indicates parameters for video session, [0047]-[0048] and [0057]); and means for processing the broadcast session using the SDP message ([0050]-[0051]).

Regarding claim 8, Nguyen teaches means for receiving header compression information ([0031]).

Regarding claim 9, Nguyen teaches memory storage adapted to store the SDP corresponding to a plurality of broadcast sessions, wherein the SDP of each of the plurality of broadcast sessions is updated when the corresponding broadcast session is accessed ([0031]-[0032] and [0042]).

Regarding claim 10, Nguyen further teaches wherein the memory storage is a cache memory (i.e., any memory [0031] and [0042]).

Regarding claim 11, Nguyen further teaches the memory storage is a look up table ((i.e., any memory [0031] and [0042]).

Allowable Subject Matter

4. Claims 1-4 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 7-11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
